Re: 1kd-FTV turbo problem help! by Hilux guy on Sun, 07 Apr 2013 6:47 +0000 It was more of a sudden loss of power, have been playing with the stepper motor on the turbo and it seems to jam up and have a hissy fit.

NewHilux.net • View topic - 1kd-FTV turbo problem help!

The signal to lower the boost pressure went to the stepper motor driver/ecu before we even got to the 224kpa level (its threshold is lower than 224 kpa) so its already busy lowering the boost. This negates the risk of overboost damaging the engine or the turbo by telling the ecu the boost is lower than it actually is.

Blank book to complete for all your gluten free recipes in one place. Handy box to list your ingredients and lines to write your method. Glossy cover to protect your book.

This offers honest and largely unedited glimpses into the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department.

This text, by a leading authority in the field, presents a fundamental and factual development of the science and engineering underlying the design of combustion engines and turbines. An extensive illustration program supports the concepts and theories discussed.

The best-selling 4WD bible, now in a fully revised and updated edition. This book explains how 4WDs work and how to drive them offroad. It covers detailed explanations of 4WD systems, suspension, wheels, tyres, weights and more. There are extensive chapters on driving theory and techniques, navigation, communications, gear selection and
