Some phonics programmes start children off by learning the letters s, a, t, n, i, p first. This is because once they know each of those letter sounds, they can then be arranged into a variety of different words (for example: sat, tip, pin, nip, tan, tin, sip, etc.). Phonics learning step 2: blending

To teach phonics, Initially, you must first teach letter-sound relationships by creating a link between the mouth movements needed to make particular sounds with the written letters (Mastrangelo 2016). It is particularly important for autistic children to link the lesson with the sensory -cognitive functions of reading and comprehension.

My son and I attended Phonics Fox classes with Chloe for almost two years. I was never taught phonics at school and my son was very quiet when we first attended. By the end we had both learnt so much and my son was the first to shout out the answers confidently! He is now in Reception and is reading well beyond his age range.
