Updated focusing on the learning needs of the new format MRCPCH Clinical examination. To maximise revision time, 3 parts represent the Clinical exam stations: Part 1 History Taking & Management Planning; Part 2 Communication Skills; Part 3 Clinical Stations. Written by paediatricians with experience of teaching and helping to run previous exams.

The MRCPCH clinical examination assesses whether candidates have reached the standard in clinical skills expected of a newly appointed specialist registrar, while the DCH recognises the competence of GPs and other health professionals in caring for children. Success in communication skills is vital to achieve

Overall success in these examinations. This revised and expanded Second Edition includes over a dozen new scenarios for both examinations, a new chapter on the general approach to effective communication, an expanded clinical exam mark sheet, anchor statements and exam circuit diagrams. Although written to aid candidates for the clinical MRCPCH and DCH examinations, this book will also be useful to paediatric trainees in their day-to-day clinical encounters.

Radiology plays a fundamental role in the diagnosis and management of childhood diseases. This is reflected in both paediatric and radiology post graduate exams, where candidates are expected to have a working knowledge of paediatric pathology, clinical manifestations and appropriate radiological investigations. Building on the great success of the first

edition, Paediatric Radiology for MRCPCH and FRCR retains the popular preexisting structure of the book, but presents an improved variety of clinical cases as well as updated text in-keeping with advances in medical practice and technology. There is more emphasis on cross-sectional imaging, as candidates are increasingly encountering these sophisticated imaging tests in postgraduate exams. Images have been updated, and all the clinical information has been reviewed and revised accordingly. Contains over 100 clinical cases, presented in exam format, with answers overleaf Includes a wide range of common and rare paediatric conditions with supplementary images to illustrate additional points Uses classic examination images, with salient radiological and clinical summaries of each condition - the "hot lists" Carries specific information for paediatricians and
