~~Calculus | Rent | 9780914098911 | Chegg.com~~

Spivak's calculus is a great text to read after you already know calculus and want to get in-depth with the theory of everything. It's a terrible choice though if you're just learning the subject for the first time. The exercises are often extremely challenging to the point of being unsolvable by many students working alone.

~~Is the Calculus 3rd edition by Michael Spivak a good book ...~~

Spivak has also authored several well-known undergraduate textbooks. Among them, his text Calculus (W. A. Benjamin Inc., 1967; Publish or Perish, 4th ed., 2008) takes a rigorous and theoretical approach to introductory calculus and includes proofs of many theorems taken on faith in most other introductory textbooks.
