Foxeer Razer FPV Camera Review - YouTube

The Foxeer CAT Super Starlight FPV Camera is an amazing leap forward in FPV camera technology. The Cat is a purpose-built low light camera that gives some of the best night flying video you'll find anywhere, but the kicker is that the Cat performs great in daylight as well.

Foxeer Cat Super Starlight Low Light FPV Camera

The Foxeer Predator V2 FPV camera comes with standard accessories. Here is a side by side comparison between the V1 and V2, they look identical from the outside. So there really isn 't much to talk about. The only way I can tell them apart is by the label on the lens.

Review: Foxeer Predator V3 FPV Camera - Oscar Liang

Foxeer offers two camera sizes for the Predator camera, the Mini and the Micro. To my understanding the two variants uses the same hardware from image sensor to processor, and should produce the same image quality. Foxeer Predator Micro FPV Camera The main differences are the size, weight, mounting and the lens.

Review: Foxeer Predator Mini FPV Camera - Oscar Liang

The Monster Pro Mini camera comes in a shiny, sturdy black plastic housing, which is the same case used on the Predator Mini. If you look closer, you will notice the Monster Pro has a larger, 1.8mm lens versus the common 2.1 mm lens used on many other Foxeer cameras.
