*Dampness And Risks To
Health*

Yes, if you have damp
and mould in your home
you're more likely to
have respiratory
problems, respiratory
infections, allergies or
asthma. Damp and

File Type PDF Dampness And Risks To Health

mould can also affect
the immune system.

Who's affected? Some
people are more
sensitive than others,
including: babies and
children ; elderly people
; those with existing
skin problems, such as
eczema

More pressingly, the
presence of dry rot in

File Type PDF

Dampness And

your home indicates high levels of dampness and condensation, which can cause respiratory problems and make underlying conditions, such as asthma, worse. Furthermore, dry rot eats through your timbers, causing them to weaken and eventually collapse - this can cause serious health and safety concerns.

File Type PDF Dampness And Risks To Health

*What are the health
risks of dry rot?*

Dampness tends to cause secondary damage to a building. The unwanted moisture enables the growth of various fungi in wood, causing rot or mould health issues and may eventually lead to sick building syndrome.
