For decades, Life and Loss has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple, as well as an honest exploration of the interrelationship between unresolved grief, educational success, and responsible citizenry. This classic edition, which includes a new preface from the author, brings this exploration firmly into the twenty-first century and makes a convincing case that children’s grief is no longer restricted only to loss-identified children. Children’s grief is now endemic; it is global. This book is about a woman who had come to America from Kashmir India. She had no knowledge about American culture or American Justice System. She was married in India and her husband brought her to America. In America her husband started abusing her. Being culturally abound, she kept taking abuse on daily basis and kept lying about her bruises and cuts to those who were asking her questions about her injuries. Abuse got worst to the extent that one day her husband tried to kill her. She gained her consciousness after couple of hours when her husband decided to dump her body in the park. Somehow in the morning she managed to escape with her two children. She went to a woman’s shelter where she lived for six months. In the shelter they insisted that she had to go to the court to get restraining order for her safety. In that process, her children were taken by the court and were given to that abusive man from whom they had a narrow escape. She was forced to pay child support when she had not taken even a one cent from her home or from her husband after she left. Her two children were given to their father because she was going to school. Judge punished her and her two children for trying to establish their life. Her Children suffered the most because of the Justice System. I wrote this book for two reasons One reason is to tell my children especially my son that I am very sorry for taking my case to American Justice System because his father has kept him in fear. Even my son is adult now but his father is still treating my son like he was treating me and my son is kept in a lot of fear, stress and extreme tension. His father didn’t let him complete his education. If he had encouraged my son to complete his education, then he wouldn’t be able to control my son’s life. That is tearing my heart every day. And second reason is that I want to help a Battered Woman and their children by telling them my story. I was a very private person but that didn’t help me. Every battered woman of this country should know that when a man hit his wife is not love. It is a danger sign figure out on time about safety zones for self and for children. My story will guide them to be strong enough to help their children.

Leonard S. Marcus has culled an exceptional collection of letters from the HarperCollins archives. The letters included here are representative of the brilliant correspondence that was instrumental in the creation of some of the most beloved books in the world today. It begins as an assignment for English class: Write a letter to a dead person. Laurel chooses Kurt Cobain because her sister, May, loved him. And he died young, just like May did. Soon, Laurel has a notebook full of letters to people like Janis Joplin, Amy Winehouse, Amelia Earhart, Heath Ledger, and more -- though she never gives a single one of them to her teacher. She writes about starting high school, navigating new friendships, falling in love for the first time, learning to live with her splintering family. And, finally, about the abuse she suffered while May was supposed to be looking out for her. Only then, once Laurel has written down the truth about what happened to herself, can she truly begin to accept what happened to May. And only when Laurel has begun to see her sister as the person she was -- lovely and amazing and deeply flawed -- can she begin to discover her own path in this stunning debut from Ava Dellaira, Love Letters to the Dead.

I didn’t expect to open my mailbox one summer morning and find an old letter stuffed between bills and a supermarket flyer. Penned in familiar handwriting, dated over fifteen years ago, the letter was written to me after my first date with the man I’ll never forget. Week after week, new letters appear. Each marks an event in the history of our epic love affair. Each heals a wound. Each holds the confession from the one who still owns my heart. The letters are full of promise, hope and love, but truth be told, I wish I could unread them all. Because the man who wrote these letters is not the one sending them. ***** This is a book you’ll want to cancel plans to finish reading, a book that’ll steal your heart and make you believe it’s real.
