Christopher Hawthorne. , The Vienna-born designer Victor Papanek was in his early 40s and bouncing from one U.S. teaching job to the next when, in the mid-1960s, he began writing *Design for the Real World: Human Ecology and Social Change*. The book would not only become the best-known product of his long career, but also help lay the foundation for the green architecture and humanitarian design movements that emerged over the course

Rereading Victor Papanek's "Design for the Real World ...

"Design for the Real World: Human Ecology and Social Change" (1971) The most important book by American design theorist Victor Papanek. In this controversial book at the time, Papanek put forward his new view on the purpose of design, that is, design should serve the people; design should not only serve healthy people but also must consider serving the disabled.
