Denary. Denary, also known as "decimal" or "base 10," is the standard number system used around the world. It uses ten digits (0, 1, 2, 3, 4, 5, 6, 7, 8, and 9) to represent all numbers. Denary is often contrasted with binary, the standard number system used by computers and other electronic devices. The first two letters in denary ("de") are an abbreviated version of "dec" which is a Latin prefix meaning "ten."
