Doctor Glas, by the Swedish writer Hjalmar Soderberg, was written in 1905, but still feels modern. I struggled to date it as I read, thinking it was perhaps from the 1920s. A masterpiece of enduring power, Doctor Glas confronts a chilling moral quandary with gripping intensity. With an introduction by Margaret Atwood. Stark, brooding, and enormously controversial when first published in 1905, this astonishing novel juxtaposes impressions of fin-de-siècle Stockholm against the psychological landscape of a man besieged by obsession. Lonely and introspective, Doctor Glas has long felt an instinctive hostility toward the odious local minister. So when the minister's beautiful wife complains of her husband's oppressive sexual attentions, Doctor Glas finds himself contemplating murder. "Imagine the classic nineteenth-century drama featuring a tyrannical older man, his hapless daughter or young wife, and her caddish suitor, as in Balzac's Eugénie Grandet and Henry James's Washington Square, this time conjured up by a sensibility akin to Strindberg's and Ingmar Bergman's—and you begin to have an idea of the force and candor of this searing masterwork of Nothern European literature. The retrieval of Doctor Glas in English is a bracing gift to hungry readers." —Susan Sontag

"Tells the story of a physician in 19th-century Sweden who deals with moral and love issues. The novel is about Dr. Tyko Gabriel Glas who is a respected physician in Stockholm. The story is told in the form of a diary and follows Doctor Glas as he struggles with depression. The antagonist is Reverend Gregorius, a morally corrupt clergyman. Gregorius' beautiful young wife confides in Dr. Glas that her sex life is making her miserable and asks for his help. Glas falls in love with her and agrees to help even though she already has another lover. He attempts to intervene, but the Reverend refuses to give up his "marital rights" — she must have sex with him whether she likes it or not. So, in order to make his love happy, he begins to plot her husband's murder. The novel also deals with issues such as abortion, women's rights, suicide, euthanasia, and eugenics. Not surprisingly, the book triggered a violent campaign against its author who was subsequently vilified in Swedish literary circles."—Wikipedia

From the author of the Finlandia Award-winning novel Troll: A Love Story, The Core of the Sun further cements Johanna Sinisalo's reputation as a master of literary speculative fiction and of her country's unique take on it, dubbed "Finnish weird." Set in an alternative historical present, in a "eusistocracy"—an extreme welfare state—that holds public health and social stability above all else, it follows a young woman whose growing addiction to illegal chili peppers leads her on an adventure into a world where love, sex, and free will are all controlled by the state. The Eusistocratic Republic of Finland has bred a new human sub-species of receptive, submissive women, called eloi, for sex and procreation, while intelligent, independent women are relegated to menial labor and sterilized so that they do not carry on their "defective" line. Vanna, raised as an eloi but secretly intelligent, needs money to help her doll-like sister, who has disappeared. Vanna forms a friendship with a man named Jare, and they become involved in buying and selling a stimulant known to the Health Authority to be extremely dangerous: chili peppers. Then Jare comes across a strange religious cult in possession of the Core of the Sun, a chili so hot that it is rumored to cause hallucinations. Does this chili have effects that justify its prohibition? How did Finland turn into the North Korea of Europe? And will Vanna succeed in her quest to find her sister, or will her growing need to satisfy her chili addiction destroy her?

In the tradition of celebrated wartime storytellers Somerset Maugham and Graham Greene, Tan Twan Eng's debut novel casts a powerful spell. The recipient of extraordinary acclaim from critics and the bookselling community, Tan Twan Eng's debut novel casts a powerful spell and has garnered comparisons to celebrated wartime storytellers Somerset Maugham and Graham Greene. Set during the tumult of World War II, on the lush Malayan island of Penang, The Gift of Rain tells a riveting and poignant tale about a young man caught in the tangle of wartime loyalties and deceipts. In 1939, sixteen-year-old Philip Hutton—the half-Chinese, half-English youngest child of the head of one of Penang's great trading families—feels alienated from both the Chinese and British communities. He at last discovers a sense of belonging in his unexpected friendship with Hayato Endo, a Japanese diplomat. Philip proudly shows his new friend around his adored island, and in return Endo teaches him about Japanese language and culture and trains him in the art and discipline of aikido. But such knowledge comes at a terrible price. When the Japanese savagely invade Malaya, Philip realizes that his mentor and sensei—to whom he owes absolute loyalty—is a Japanese spy. Young Philip has been an unwitting traitor, and must now work in secret to save as many lives as possible, even as his own family is brought to its knees.

A collection of the most popular and well known stories by Soderberg, whose clear-sighted affection for Stockholm shines through each.
