To shade smoothly, try to keep your pencil strokes close together. Eliminate major gaps between your strokes while maintaining good pressure control. Now, it's difficult to eliminate gaps if your pencil is sharp. So what you can do is wear the pencil down until the tip is dull or use the side of the lead to draw so your strokes come out thicker:

Shade an area with a hard pencil (e.g., HB or H) to flatten and smooth the grain before shading with a soft pencil (e.g., B or 2B). The harder pencil gives the softer one a nice, smooth foundation, making this is a great approach for medium to heavy shading. Shade over an area of soft pencil with a hard pencil to smooth and even out the graphite.

When pencil shading, the first thing most people do is to move the pencil back and forth in a regular pattern, with the 'turn' at the end of each movement roughly parallel, as in the first example. The trouble is, when you use this technique to shade a large area, that even edge gives you a dark line through your area of tone.

+ Bonus Book Welcome to the little big book all about Pencil Sketching! You may be asking yourself right now from the beginning, what do we mean by pencil sketching? Well that is pretty simple to explain. You see something out there in the world and you think to yourself, man I would love to draw that. So you grab a piece of paper and a pencil, and then bam! You draw the thing that you had thought of drawing using a pencil. Although, as simple as that sounds, this is a little more complex than that. Only in the way that there are many different kinds of sketching, and this kind is specifically a little different than the others. You will learn how to draw: What you'll need about pencil techniques The Basics of pencil techniques Dimensions, Perspective and Textures How to draw flowers How to draw animals How to draw fruits How to draw person Drawing different objects How to draw house Like this book?
