The aim of PCPNC is to provide evidence-based recommendations to guide health care professionals in the management of women during pregnancy, childbirth and postpartum, and newborns, and post abortion, including management of endemic diseases like malaria, HIV/AIDS, TB and anaemia. The PCPNC is a guide for clinical decision-making.

WHO | Pregnancy, childbirth, postpartum and newborn care

The first step in providing maternal and newborn services during the COVID-19 pandemic is to determine pregnancy status. Once a woman discovers she is pregnant, she will either contact a Community Health Worker (CHW) to provide an antenatal care (ANC) assessment or visit a health center facility directly to confirm her pregnancy and receive ANC.

The aim of Pregnancy, childbirth, postpartum and newborn care guide for essential practice (PCPNC) is to provide evidence-based recommendations to guide health care professionals in the management of women during pregnancy, childbirth and postpartum, and post abortion, and newborns during their first week of life, including management of endemic diseases like malaria, HIV/AIDS, TB and anaemia.

Pregnancy, Childbirth, Postpartum, and Newborn Care ...

Placenta-mediated pregnancy complications are a major challenge in the management of maternal-fetal health. Maternal thrombophilia is a suspected risk factor, but the role of thrombotic processes in these complications has remained unclear. Endothelial protein C receptor (EPCR) is an anticoagulant protein highly expressed in the placenta. EPCR autoantibodies and gene variants are associated ...
