Classic works and contemporary ideas

An affordable companion reader to Essentials of Comparative Politics that features the classic ideas and contemporary debates that inform comparative politics today.

An affordable companion reader to Essentials of Comparative Politics, including the classic ideas and contemporary debates that inform comparative politics today.

Introducing Comparative Politics: The Essentials is organized thematically around the essential questions in comparative politics—Who rules? What explains political behavior? Where and why? Adapted from the authors 's Introducing Comparative Politics, Fourth Edition, The Essentials version offers the same framework for understanding comparative politics in a briefer format. Instructors have greater flexibility in teaching the course because this version of Stephen Orvis and Carol Ann Drogus 's best-seller does not include extended case studies. Loaded with contemporary examples and up-to-date research, this streamlined text helps students engage with the critical issues shaping global politics today. KEY FEATURES: Chapter-opening key questions help you focus on the key issues as you are reading. The chapters sometimes provide conclusive answers to the key questions, but more often they show you different ways the questions can be answered or approached. Multiple " In Context " features in every chapter illustrate basic data about the chapter topics so you can set that idea into a comparative (and sometimes provocative) context. Critical Inquiry features highlight methodological issues in comparative politics, providing a gateway for empirical study and analysis. More than a hundred full color tables, figures, and maps help you visualize comparative data and better understand concepts. End-of-chapter lists of key concepts with page references are included to help you easily study and review the concepts, and a list of works cited and list of important print and electronic references offer you resources for further research.

The Essentials of Comparative Politics family provides all of the tools professors need to introduce the study and comparison of political systems. A brief conceptual textbook of the core ideas behind comparative politics, a complete casebook of thirteen country studies, and a comprehensive reader of secondary and primary sources together these give instructors the utmost flexibility in structuring their courses without asking students to pay too much. Essential Readings in Comparative Politics combines classic theoretical works, contemporary scholarship, and serious journalistic pieces for undergraduate comparative politics courses. Designed to complement the core textbook, Essentials of Comparative Politics, the reader's chapters are organized thematically around major topics. The Fourth Edition includes 40% new readings.*

*Cases and Concepts in Comparative Politics gets students out of the text and into the real world. Through its unique applied approach that introduces the concepts in the context of real situations, along with pedagogy that encourages students to practice exploring on their own the concepts in action in country case studies, students spend more time doing the work of comparative politics and less time reading about it"--

*Essentials of Comparative Politics is the best-selling book for the course because it provides clear, concise, and contemporary coverage of core concepts in flexible, affordable formats. The Seventh Edition goes even further to address course needs with new coverage of the methods used by comparativists to answer contemporary questions in the discipline"--

Comparative Politics provides a comprehensive introduction to political systems around the world. It covers methods and theories; the nation-state; institutions; actors and processes; policies; and recent changes.
