Food and Globalization: Consumption, Markets and Politics ...

The creation of a global market for food products has important effects on the availability and prices of food commodities. On the production side, global markets encourage specialization in export crops, which tends to create economies of scale in agricultural and food production, leading to increased global output, but also to homogenization in the availability of food products [7 , 23 , 24].

Economic globalization, nutrition and health: a review of ...
by Martina Fuchs. GENEVA, Oct. 29 (Xinhua) -- Nestle, one of the world's largest food and beverage companies, will continue to actively invest in the Chinese market despite challenges brought by the COVID-19 pandemic, and hopes that the China International Import Expo (CIIE) starting next week could "drive a new tide of consumption".
