Ford Fiesta Automatic Transmission Fixes. The automatic transmission in the Ford Fiesta (2011-Present) and the Ford Focus (2012-Present) is not like a traditional transmission found in many cars. Technically, it is a dual-clutch transmission (more on that later) that operates differently than a traditional automatic.

Ford Fiesta Automatic Transmission Fixes - Motor Review

Starting Monday, owners of certain Ford Fiesta and Focus small cars equipped with the automaker's PowerShift automatic transmission can begin filing settlement claims that could top \$20,000 apiece,...

Ford Focus, Fiesta Transmission Settlement: What Owners ...

In recent years, Ford has been faced with issues regarding the transmissions in certain models. According to CarAndDriver.com, the automaker pay a minimum of \$30 million to reimburse owners, due to transmission issues with their cars. In a March, 2020 article, CarAndDriver.com stated: "A federal judge approved the settlement Ford offered in late January wherein the automaker will repurchase thousands of defective Fiesta and Focus vehicles for up to \$22,000 each, according to the Detroit ...

Problems with Ford Automatic Transmissions (Focus & Fiesta)

From 2011 for the Ford Fiesta and 2012 for the Ford Focus, Ford have been releasing cars with what they call a 'PowerShift Dual Clutch' to replace a traditional automatic setup. It's a new type of transmission, which essentially has two clutches as opposed to the traditional one - one clutch drives the odd gears and the other drives the even.

FORD: Recall faulty Focus and Fiesta transmissions

"In order to improve customer satisfaction with the operation of Powershift automatic transmissions on certain 2010-16 petrol Focus, Fiesta and EcoSport models, Ford has released a new formulation for the friction material on the clutches that is designed to deliver shift-quality improvements," said Gunsberg. How many vehicles are affected?
