An activist calls for better support of young families so they can thrive and reflects on her experiences as a Black mother and college student fighting for opportunities for herself and her child. Pregnant Girl presents the possibility of a different future for young mothers--one of success and stability--in the midst of the dismal statistics that dominate the national conversation. Along with her own story as a young Black mother, Nicole Lynn Lewis weaves in those of the men and women she's worked with to share a new perspective on how poverty, classism, and systemic racism impact teen pregnancy and on how effective programs and equitable policies can help teen parents earn college degrees, have increased opportunity, and create a legacy of educational and career achievements in their families. After Nicole became pregnant during her senior year in high school, she was told that college was no longer a reality--a negative outlook often unfairly presented to teen mothers. Nicole left home and experienced periods of homelessness, hunger, and poverty. Despite these obstacles, she enrolled at the College of William & Mary and brought her three-month-old daughter along. Through her experiences fighting for resources to put herself through college, she discovered her true calling and founded her organization, Generation Hope, to provide support for teen parents and their children so they can thrive in college and kindergarten--driving a two-generation solution to poverty. Pregnant Girl will inspire young parents faced with similar choices and obstacles that they too can pursue their goals with the right support.

Coming Of Age In The 1970s and 80s, Generation X had a unique experience of the cultural shifts now affecting the way the church works in the world---the advent of personal computers, mass media, consumerism, and family instability. Having perceived the world as less concrete and more detached, Gen X Christians have a deep hunger for authentic community and intentional faith precisely because those things have become more and more difficult to achieve. Generation Rising is the collaboration of twelve Gen X authors who believe passionately in the Wesleyan vision of Christian discipleship and holy community. They offer a vision of what the United Methodist Church could be when we preach, gather, study, and serve together with an abiding awareness of God's call to connect and grow in grace. "Generation Rising made me marvel at the ability of Wesleyan Christianity to reinvent itself in each generation. Here is Wesleyanism and our church imagined as having a future as bright as our noble past." ---WILL WILLIMON "Generation Rising is a book of hope. The intelligence and energy represented by these young Methodists gives me hope that Methodism has a future. These essays, while drawing on the gifts of the Wesleys, offer a constructive alternative for all churches." ---STANLEY HAUERWAS "This collection is a hopeful sign for the church--showing that affirmation of the particularity of a new generation does not have to come at the expense of embracing wisdom from earlier generations of God's people. These pages reclaim and develop some of Wesley's deepest convictions about our dependence upon grace, the vital role of community, and the formative power of disciplines." ---RANDY L. MADDOX

They are called Generation Hope, named after Hope One, the space colony they were born on and the only home they will ever know.By the time Hope One reaches New Earth, they will be too old to go down

Michael J. Worth's best-seller, Nonprofit Management: Principles and Practice, provides a comprehensive, insightful overview of key topics nonprofit leaders encounter daily. Worth covers both the governance and management of nonprofit organizations--the scope and structure of the nonprofit sector, leadership of nonprofits, management, fundraising, earned income strategies, financial management, lobbying and advocacy, managing international and global organizations, and social entrepreneurship--helping readers understand what they are and how they work. The text balances research, theory, and practitioner literature with current cases and the most recent data available, making it appropriate for undergraduates, graduate students, and nonprofit professionals. The Sixth Edition has been updated to include new material regarding diversity, equality, and inclusion; volunteer stewardship; nonprofit executive transitions; models for pursuing earned income; ethical dilemmas and controversial donors; generational differences in the workplace; and an exploration of the role of nonprofits in advancing social movements.

One quiet afternoon in 2037, Joyce Denzell hears a thud in her family's home library and finds a book lying in the middle of the room, seemingly waiting for her--a book whose copyright page says it was published in the year 2200. Over the next twenty-four hours, each of the Denzell family members discovers and reads from this mystical history book from the future, nudged along by their cat, Plato. As the various family members take turns reading, they gradually uncover the story of Gabe, Mia, and Ruth--a saga of adventure, endurance, romance, mystery, and hope that touches them all deeply. Along the way, the Denzells all begin to believe that this book that has seemingly fallen out of time and space and into their midst might actually be from the future--and that it might have something vitally important to teach them. Engaging, playful, and thought-provoking, Hope is a seven-generation-spanning vision of the future as it could be--based on scientific projections, as well as historical and legal precedence--that will leave readers grappling with questions of destiny, responsibility, and the possibility for hope in a future world.
