Identity is the intermediate stopover in the two-way feedback between economics and politics. A focus on identity politics has important practical implications. One of them is that, to succeed in the fight against populism, democratic politicians have to learn to practice identity politics, but of the right kind.

politics which is supposed to represent the interests of minority or marginalised groups, by tracing politics to the foundation of a group identity, generally defined according to abstract categories of race and gender.

*The problem with identity politics | New Humanist*

Identity politics is a term that describes a political approach wherein people of a particular religion, race, social background, class or other identifying factor develop political agendas and organize based upon the interlocking systems of oppression that affect their lives and come from their various identities. Identity politics centers the lived experiences of those facing various systems of oppression to better understand the ways in which racial, economic, gender, and other forms of oppre

conflicting views of language and identity, from about 1935 until near the end of the Soviet era we are left primarily to observe policy shifts that in large measure reflected decisions made in Moscow. Under Gorbachev, thanks to glasnosf, there were more clues about language and identity from Central Asians' own voices.

Getting to the heart of racial identity politics, and what it means  
for us today. Rich Mulholland helps us solve an annoying problem, cut  
through the crap and make sense of the nonsense. A podcast using the  
value of freedom as a lens through which to examine perennial topics  
such as religion, identity politics and censorship.
