When Your Honda Hybrid IMA Light Turns On, Do This Right Away! By Bumblebee Batteries. Everyone has a friend, sibling, or significant other in their life that thinks those warning lights on the dashboard are only there for decoration. Point out that little engine warning light, and this person will shrug, change the subject, or eagerly tell you that the Check Engine light is just a conspiracy by the big auto manufacturers to rip off drivers.

What does the Honda Hybrid IMA light mean? | Bumblebee...

When the IMA light comes on, this is a sign of a problem in the Hybrid system. When the Check Engine light is also lit, the most common problem is the Hybrid Battery. You can actually have this confirmed by having the "p-codes" (diagnostic trouble codes) read from the on-board computer.

The IMA light and Check Engine light came on my 2004 Honda...

The "maint req" light is a very minor fix. Usually it means you need to change the engine oil, check in your owners manual. There is a page on how to reset the light once the oil is new again. You probably also have a "check engine" light on. This comes on with the IMA light and is usually related to IMA pack issues too.

How can I fix Check engine light and IMA light that is on...

The IMA, or Integrated Motor Assist is essentially a back-up to the primary combustion engine. According to Honda, there are 3 different types of hybrid cars. In each type, the hybrid battery provides some or all of the power needed. Is it safe to drive my hybrid car with the IMA light on? The short answer to this question is " probably ". Your IMA light is most likely telling you that the hybrid battery is in need of maintenance. As long as your 12V battery light is not on, your car will ...

Check Engine light and IMA? | Honda Insight Forum

The IMA (Integrate Motor Assist) light relates to the Hybrid function of your vehicle, specifically the Hybrid battery pack. This light indicates that the battery pack may not be charging to its full capacity anymore. This is likely also the reason your check engine light is on. Code P1600 relates to faulty ECM battery function or poor connection, which is a result of the battery pack not charging.

Honda Civic Hybrid Questions - IMA light? - CarGurus

The IMA uses regenerative braking to capture some of the energy that would otherwise be lost to heating during deceleration, and reuse that energy later to help accelerate the vehicle. This has three effects: it increases the rate of acceleration, reduces the work required of the engine, and reduces the frequency of brake hardware replacement. The acceleration boost is important as it allows the engine to be scaled down to a smaller but more fuel-efficient variant without rendering the ...

Integrated Motor Assist - Wikipedia

My mechanic can turn off the check engine light but it comes right back on. The engine, of course, passes the emissions test just fine. I need to find someone or a method to turn off the check engine light pertaining to the bypassed battery or will have to just give the car away and I would rather not.

Options: Failing Honda Insight IMA Battery? | Mario Lurig

The IMA light comes on whenever there is a problem typically with the IMA (integrated motor assist) battery for the Hybrid operation. This can be cured by software updates sometimes, but can also be an indication the IMA battery is a problem. If you have never had the IMA battery replaced, it is long past its life expectancy at 9 years.

ima light and check engine light on - 2004 Honda Insight

Ima battery - premature battery module deterioration (code p0a71.) was determined to be the cause of ima and check engine light. The battery module was replaced by the Honda dealer. Ima and check engine light came again in October 2013, less than 3 year of use. Took it to the Honda dealer.
