International Economics: Theory and Policy provides engaging,  
balanced coverage of the key concepts and practical applications of  
the two main topic areas of the discipline. For both international  
trade and international finance, an intuitive introduction to theory  
is followed by detailed coverage of policy applications.

International Economics: Theory and Policy, 11th Edition

His research focuses on two areas: international trade policy and  
behavioral economics. With respect to behavior, he examines why  
people choose to do things that many observers view as irrational.
