~~Of Modern Micro Economic Theory By Hl Ahuja Schand~~
Microeconomics concerns decision-making by individuals and small groups, such as families, clubs, firms, and governmental agencies. As the famous quote. from Lord Robbins at the beginning of the chapter says, microeconomics is the. study of how scarce resources are allocated among competing ends.

~~A REVIEW OF MICROECONOMIC THEORY~~
The authors' treatment is both contemporary and probing, covering all aspects of modern microeconomic theory at a level accessible to graduate students, and which goes beyond simple statement of results to underscore the underlying intuition. This text should be a standard for graduate study in microeconomics! --Lars Stole, University of Chicago

Microeconomics is concerned with the economic decisions and actions of individuals and firms. Within the broad church of microeconomics, there are different theories that emphasise certain assumptions and expectations of economic behaviour. The most important theory is neo-classical theory, which places emphasis on free-markets and the assumption individuals are rational and seek to maximise utility.

Modern economics, mainly developed in last sixty years, systematically studies individu- als' economic behavior and economic phenomena by a scientific studying method - obser- vation-theory-observation - and through the use of various analytical approaches. •What is Economic Theory? 2

~~Microeconomic Theory - Texas A&M University~~
Abstract. Development Microeconomics looks at a broad spectrum of topics in development economics, combining the strength of conventional developmental thought with the insights of contemporary mainstream economics. This book intends to provide illustrations of microeconomic analyses of economic development by utilizing simple, theoretical, micro models of some of the key economic issues in poor countries.

John Maynard Keynes published a book in 1936 called The General Theory of Employment, Interest, and Money, laying the groundwork for his legacy of the Keynesian Theory of Economics. Keynes positioned his argument in contrast to this idea, stating that markets are imperfect and will not always self correct.

~~Major Theories in Macroeconomics | Boundless Economics~~
Today, the corresponding dichotomy is between "macroeconomics" and "microeconomics." The motivating force for the change came from the macro side, with modern macroeconomics being far more explicit than old-fashioned monetary theory about fluctuations in income and employment (as well as the price level).
