PROCUREMENT METHODS

Arguably, the open tendering method of procurement encourages effective competition to obtain goods with an emphasis on the value for money. However, considering this is a procedures based method a lot of procurement experts feel that this method is not very suitable for large or complex acquisitions due to the intense focus on the output process instead of stringent obedience to standards.

Traditional procurement methods in construction. The First approach of the traditional procurement methods(types of contracts) is the employer himself is appointing a project management team for work. So the contractor ' s only task in the traditional procurement will be the execution of the project (and handling the subcontractors & suppliers).
