Another pair of terms that are often (inaccurately) used to mean the same thing are purchasing and procurement. In the same way that logistics relates to supply chain management, purchasing is a process that occurs within the overarching process of procurement. To better illustrate this, let's first explain what procurement is all about.

## ~~Case Study~~

Understanding the difference between procurement and supply chain management is crucial, as these terms are not interchangeable but they often get mixed up.

Procurement is the process of acquiring the goods your company needs for its business model. Supply chain management is the process of turning those goods into products and distributing them to customers as efficiently as possible.
