entry point and navigation options in the SAP system. In this context, "user-specific" means that the tree structure displays only those transactions with which you may work according to your role (see Chapter 13, The Role and Authorization Concept, for details on roles).

Using SAP: A Guide for Beginners and End Users  
SAP Financial Information Management (SAP FIM) SAP Financial Information Management provides an easy to use user interface for business users to define, execute and monitor integration mappings and conversions between a data source (application) and data target (application) where the source and/or target are primarily SAPs EPM Solutions but also flat files, SQL database, SAP ECC, SAP BW and even non-SAP applications can serve as a data source or target.
