SIGNS ON THE HORIZONS is an enthralling contemporary memoir of one seeker's interactions with men who have transcended the ordinary and achieved stations of spirituality and enlightenment that in the modern world we only attribute to the Biblical fathers of ancient times or to myth. Michael Sugich, an American writer who was initiated into a traditional Sufi order over forty years ago and who lived for 23 years in the sacred city of Makkah Al Mukaramah, has kept company with some of the greatest Sufi saints of the age from many parts of the world. His book is a unique eye-witness narrative of a mystical tradition that today hides in plain sight, veiled by the turbulence and materialism gripping the Muslim world. It is a spellbinding personal memoir told with eloquence, empathy, self-effacing humor, insight and love.

'Hearts Turn' is a singular and gripping exploration of the act of 'tawba', a Qur'anic term commonly translated as repentance. In English, repentance is a forbidding word that suggests a puritanical finality. But in Arabic the term 'tawba' is dynamic, meaning to 'turn' or 'return'. 'At-Tawwab' is one of the Names of God, the Oft-Returning or Ever-Relenting. It is an active constant, an ongoing, compassionate reality that renews every moment we are alive. The process of purification is a process of continuous turning. In 'Hearts Turn' Michael Sugich, author of 'Signs on the Horizons', tells stories that are harrowing and hilarious, heartrending and bizarre, profane and transcendent, and altogether full of hope, showing how men and women from many parts of the world and many walks of life have turned themselves around and taken a fork in the road toward a higher reality. "This book is a declaration of mercy and certainty. Formed of a collection of stories I've experienced, read or heard, about how malleable the human heart can be and how wrongdoing, remorse, need, and yearning intersect with Divine Compassion, Forgiveness and Guidance. It is also about the sudden transitions from confusion to clarity, from sin to virtue, from sleep to wakefulness, from ignorance to knowledge, from foolishness to wisdom. And finally it is about the path of our lives, which leads us gradually, and for those who God favors, inexorably to salvation." From the introduction to 'Hearts Turn'"Magnificent!...Interlacing ancient and modern experiences of the unexpected presence of God, this unique anthology of conversion stories reminds us of the ongoing spiritual power of Islamic faith." Dr. Timothy Winter (Shaykh Abdal Hakim Murad) Dean of Cambridge Muslim College"Michael Sugich is a master storyteller as he demonstrated in 'Signs on the Horizons'. 'Hearts Turn' is a brilliantly written reminder that God's Mercy is always open to each of us, no matter our position in life. This book has the power to leave the reader wanting to turn to God and to His Mercy. I loved this book." Sami Yusuf Singer, Composer, Humanitarian"A really heartwarming book...for a generation of young Muslims and converts who face inner doubts and in need of a few smart lessons from Michael's journeybook, told through many voices and his own unique spiritual history. It is a relief to know I am not alone." Yusuf Islam (Cat Stevens)

Written by 18th-century Moroccan scholar and mystic Ahmad ibn 'Ajiba, this book defines Sufic terminology. Based on four published Arabic editions of the Mi'raj and two manuscript versions, this translation is supplemented by excerpts from some of Ibn 'Ajiba's other works, which offer insights about the essential notions of Sufism: repentance, integrity, love, patience, gratitude, and the Eternal Wine. A comprehensive compilation, this bilingual edition—Arabic and English—celebrates Ahmad ibn 'Ajiba's belief that coming to know and reflect upon these notions could be, in itself, a sort of ascending meditative journey.

Photographer Peter Sanders offers arresting images of Muslim life around the globe in *In the Shade of the Tree: A Photographic Odyssey Through the Muslim World*. Sanders's use of light and shadow shows him to be a true artist; the simplicity of these photos is glorious. There are exterior (and even some stunning interior) shots of mosques, including Beijing's 1,000-year-old Niujie Mosque and Al-Aksa Mosque in Jerusalem, as well as astonishing portraits of individuals. Sanders includes photos from much of the Muslim world, including West Africa, Saudi Arabia, Sudan and Turkey.

The luminous presence of women who follow the Sufi Way—the mystical path of Islam—is brought to life here through their sacred songs and poetry, their dreams and visions, and stories of their efforts as they witness the Truth in many realms. These writings reflect the honor and respect for the feminine in the Sufi worldview, and they are shared in the spirit of inspiration and hope for the flourishing contributions of women to the spiritual development of humanity. Spanning the centuries, from the time of the Prophet Muhammad to the present day, the selections are by or about an array of Sufi traditions in different parts of the world, from Asia, Africa, and the Middle East to Europe and America—from beloved members of the Prophet's family to the mystic Rabi'a al-Adawiyya to the modern scholar Annemarie Schimmel. Biographical anecdotes and personal memoirs provide a glimpse into the experience of great saints and contemporary practitioners alike, while providing an introduction to the principles and practices of Sufism.

A study of the writings of Ibn Barraj?n, an influential pioneer of intellectual mysticism in the Muslim West.

It seems these days that everyone hates meetings. How many times have you heard someone say, "We have too many meetings," or "I am booked so solid every day in meetings I never have time to get anything done," or "I'm back-to-back..." But when you talk to people, it isn't that they hate meetings; it's that they don't like meetings in which nothing gets done. No one is sure why the meeting was called, or why half the people are in the room, or what exactly is supposed to get done, or what was decided. We complain about meetings, but we seem to attend more and more of them. This book is for people who need to lead effective meetings, in any context. It is a blueprint for how to have your meetings work, defined as, meetings that achieve the results you want to achieve, in the meeting and afterwards. It's a how-to guide for using the time you spend planning, organizing and conducting meetings wisely. It's about getting results through meetings. Why are effective meetings important? Meeting quality matters. Well-run organizations have well-run meetings. Sloppily run organizations have sloppily run meetings. What are the signs of a bad meeting? The meeting starts late. There is no agenda. The meeting runs over. No

one is sure what if anything was decided or accomplished. The same meeting to discuss the same topic seems to be held over and over again. No one knows what the next steps are or who is supposed to follow up whom for what. Someone monopolizes the meeting and someone else talks in circles, while yet someone else seems to simply rephrase and repeat what has already been said. Nothing discourages people, whether volunteers or employees, like feeling they are wasting their time. Too many meetings waste time. They sap morale, and leave people frustrated or irritated. This is a shame, as leading an effective meeting is not rocket science once you have a blueprint. If you have an allergic reaction to wasting time in meetings, this book is for you. It is divided into five principal sections: Preparation Invitation Agenda Delivery Follow Up The sections outline the five phases of a meeting. For your meeting to be successful (again, defined as, a meeting that achieves the results you want to achieve), you must execute each phase successfully. Meetings versus Presentations The tips in this book are intended to apply to both meetings, in which various people interact in a more-or-less informal setting, and presentations, occasions on which a speaker presents material to an audience in a structured, more-or-less formal setting. Some principles apply more directly to meetings, others to presentations. All are relevant to both."

"Ab? ?Abd al-Ra?m?n al-Sulam? (d. 412 AH / 1021 CE) was one of the foremost representatives of early Sufism who influenced successive generations through his many disciples and through his writings. 'Jaw?mi? ?d?b al-??fiyya', of which 'A Collection of Sufi Rules of Conduct' is the first English translation, was one of the first attempts to provide an accurate formulation of Sufi beliefs and manners (?d?b) and to show their compatibility with the Qur??n and the example of the Prophet. The many sayings and maxims collected by Sulam? represent the views of more than five generations of mystics and give us insight into Sufi thought up till the beginning of the eleventh century. 'A Collection of Sufi Rules of Conduct' is both a Sufi treatise and a miscellany of universal ethics. By plunging the reader into the heart of the Islamic spiritual tradition and engaging him with its beautiful aphorisms and moral sayings, it propounds the idea that the Sufi, and by extension every human being, should constantly strive towards attaining total harmony between his exterior conduct and his intimate relationship with God. The translation of 'A Collection of Sufi Rules of Conduct' is preceded by an introduction which places Sulam? in his historical, literary and religious context, and which situates the text within the traditions of Arabic literature and Islamic mysticism. The translation is fully annotated and is followed by a glossary of Sufi technical terms"--Publisher's description, back cover.
