SOCIAL CAPITAL AND COMMUNITY GOVERNANCE*. Samuel Bowles and Herbert Gintis. Community governance is the set of small group social interactions that, with market and state, determine economic outcomes. We argue (i) community governance addresses some common market and state failures but typically relies on insider-outsider distinctions that may be morally repugnant and economically costly; (ii) the individual motivations supporting community governance are not captured by either ...

SOCIAL CAPITAL AND COMMUNITY GOVERNANCE*
Community governance is the set of small group social interactions that, with market and state, determine economic outcomes. We argue (i) community governance addresses some common market and state failures but typically relies on insider-outsider distinctions that may be morally repugnant and economically costly; (ii) the individual motivations supporting community governance are not captured by either selfishness or altruism; (iii) communities, markets and states are complements, not ...

Social Capital And Community Governance - Bowles - 2002 ...*
Those advocating social capital, or as we would prefer, community governance, as an important aspect of policy-making and institution-building have come to be dissatisfied with this view, doubting (with Kenneth Arrow) that states or markets, in any combination, can be so perfected as to make norms redundant, and believing that the substantial drawbacks of this third form of governance can be attenuated by adequate social policy.

Partnership has now penetrated the lexicon of state policy as part of governmental reconfigurations towards new forms of local social governance that aim to be citizen-focused, relationship-based and collaborative. Partnerships are virtually a requisite for community-based initiatives that seek holistic and multi-sectoral solutions.

Understanding Social Capital Within Community / Government ...
Cities and milieux share many characteristics, not really in their physical form but in their intrinsic economic role in the shaping of the spatial economy: thanks to geographical and cultural proximity, density of interaction and presence of social or relational capital, these 'organised territories' provide the governance structures that are needed to complement pure market forces in a context of increasing complexity and uncertainty. In particular, coordination of complementary and ...

Uncertainty, Social Capital and Community Governance: The ...
Social capital generally refers to trust, concern for one's associates, a willingness to live by the norms of one's community and to punish those who do not.

Social Capital and Community Governance
According to the social capital literature, where a community is characterised by a high level of social capital, then a higher level of civic engagement, trustworthiness and self monitoring among its members occur. These elements characterise the so called community governance.
