The Prep Manual for Undergraduates now, more aptly named as Pharmacology for Medical Graduates, Third Edition includes significant expansion and revision of the existing Second Edition. The style and presentation form has been maintained - simple diagrams, self-explanatory flow charts, tables and student friendly mnemonics. Some new topics like cognitive enhancers, CNS stimulants, Drugs for the treatment of Psoriasis and Acne vulgaris have been introduced. Definitions, treatment schedules as per WHO (for tuberculosis, leprosy, malaria, HIV), RNTCP (for TB) guidelines and classification of blood pressure as per JNC, 2003 guidelines have been included and we acknowledge the same. This extensively revised edition will be useful not only for the students of medicine but also for practicing doctors. Salient Features Format based upon the pattern which is followed by the examiners in framing questions in the exams- both theory and Practical. Updated content with addition of new drugs Addition of new flowcharts, Figures and tables to facilitate quick learning and greater retention of knowledge Specific description of drugs under short headings makes it easy to understand. Easy to understand and point-wise presentation of information, useful for exam going UG students. Supplementing text with simple diagrams, self-explanatory flow charts, tables and student friendly mnemonics.

This book is written mainly for Undergraduate Dental Students. Its user-friendly format provides knowledge of pharmacology without extraneous details—as needed by BDS students.
