The body: social process and cultural theory | Coventry ...

The body-social problem for participatory sense-making (and cognitive science in general) arises when, while making the embodied and social turn, one does not fully endorse the principle of through and from a world. Freeing, I should thus emphasize, really means to bracket for a moment any role that the body might play in the individuation of human cognitive identity and to instead consider human individuation as a social process rigorously and all the way down (the body does play a non ...
