Michael Latham's The Right Kind of Revolution will for the foreseeable future be the textbook synthesis on the impact of ideas of modernization on American foreign affairs during the twentieth century.... It toggles artfully between discussions of U.S. foreign policy in the Global South, how ideas of modernization were used both to understand and to guide those policies, and how these policies and ideas were received by political elites in target countries.

The Right Kind of Revolution: Modernization, Development...

The Right Kind of Revolution is the best illustration yet of how 'modernization' can serve as a synthetic theme useful in studying America's encounter with developing societies during and after the Cold War. Topics such as land reform, agricultural technology, and development consortiums appear in this book within a single frame.
