The World of Psychology offers an accessible text that is designed to seamlessly combine basic learning principles with applications to address the needs of today' s diverse student population. The 5th edition of Wood/Wood/Boyd reflects the authors' commitment to the importance of learning and applying core principles in psychology. Students and Instructors of The World of Psychology will benefit by engaging in learning core concepts and applying them to the world we know. Biology and Behavior, Sensation and Perception, States of Consciousness, Learning, Memory, Cognition and Language, Intelligence and Creativity, Child, Adolescent and Adult Development, Motivation and Emotion, Human Sexuality and Gender, Health and Stress, Personality Theories, Psychological Disorders, and Therapies. Introduction to Psychology.

Real World Psychology, a brief version of Huffman's Psychology in Action, reflects Huffman's core "student/active classroom" philosophy and is designed specifically for the unique needs of those who demand big things from a small package. This text ties every single concept to a real-world, in-text example by utilizing case studies, photos, graphs, news stories and charts. This brief approach allows readers to grasp the "big picture" in psychology

continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for Media Effects, Media & Society, and Psychology of Mass Media coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

“As you read through the essays you will, I imagine, be struck by the sheer breadth of topics to which modern psychology has applied itself—from human perception to the use of memory in the courtroom, to teaching children how not to hate, and on and on. “
from the Foreword by Malcolm Gladwell Psychology and the Real World gives students the opportunity to learn about some of the most important psychology

research of our time from the best possible sources—the actual scientists behind the studies that have not only reshaped our understanding of brain, mind, and behavior, but have significantly changed the way we live our lives. In *Psychology and the Real World*, each contribution is an original essay written exclusively for this project, with the “Who’s Who” gathering of authors explaining, clearly and passionately, the work they have pursued and what it means to us. With new and updated essays throughout, the new edition again exemplifies the broad scope and life-changing benefits of contemporary psychological science. The authors have volunteered their contributions and have agreed that royalties will go to FABBS to support their educational mission. The book is affordably priced to students whose instructors adopt one of Worth’s introductory psychology texts and Worth is returning all of the revenues so earned directly to FABBS.

The most relevant textbook for today's students.
