Need help with your new Google Pixel? Google Pixel is Google's newest smartphone (as of October 20, 2016). The Pixel includes many new features never before seen on a Google smartphone, such as Google Assistant (an updated version of Google Now), redesigned application launcher, redesigned fingerprint scanner, application quick actions, Night Light, and many more. The Help Me Guide to the Google Pixel organizes all of the available information on the Pixel into a single guide, where it can be easily accessed for quick reference. There is no fancy jargon and every instruction is explained in great detail, which is perfect for beginners. In addition, this guide expands on the basics by discussing useful tips that are excellent for more advanced users. The level of detail in each chapter sets this guide apart from all the rest. Countless screenshots complement the step-by-step instructions and help you to realize the full potential of the Pixel. The useful information provided here includes tips and tricks, hidden features, and troubleshooting advice. Help is here!

The Ultimate Guide to Mastering an Android device for Beginners and Seniors! If you're holding your shiny new Android smartphone and wondering how to get the most from it, then you've come to the right place. There are different versions of the software, there are plenty of different manufacturer skins layered over that Android core, like those from Samsung or LG, and there's a limitless level of customization you can apply from Google Play, or other third-party sources. Very few Android devices are alike, but all Android devices have the same foundation. So, starting at the beginning, here's a book to guide you on how to use your new phone. It takes more than a good eye and an amazing tech knowledge to use android like a pro. With the help of Android Phones User Guide for Beginners, you'll find all the expert advice and know how you need to unlock your phone's capabilities to their fullest potential. From working with the basics of setup and exposure to making sense of your camera's fanciest features and so much more. Here's a preview of what you'll learn Learn the five basic options for setting up and customizing your phone How to use the find my phone feature How to backup your contacts Put your skills together to take excellent pictures To grab a copy, please scroll to the top of this page and click the buy now button!

Every few generations, there is a 'killer app' (i.e. the spreadsheet, email, etc.). These are apps that change the industry in such a way that changes the way people work. The current killer app is Bitcoin, because it is essentially allowing software to generate money from 'mined' data. Bitcoin also started the cryptocurrencies and Blockchain movement that is revolutionizing the financial industry. Each of these two technologies has started whole new movements that are creating new companies, wealth, and products.
