Washington Manual Surgery Intern Guide

Sample content from The Washington Manual® Internship Survival Guide: DON'T PANIC! Keep your sense of humor. A positive attitude will take you far. Ask questions and ASK FOR HELP! Believe it or not, you are not actually expected to know everything. TAKE CARE OF YOURSELF. Sleep when you can, remember to eat, and be mindful of your own health.

"This manual is written assuming knowledge of pathophysiology and data interpretation. The target audience is primarily those beginning their internship, but this guide may be useful for medical students, residents, and anyone else on the front lines of patient care"--

This small pocket book contains all the essentials that every resident needs to know from day one on the wards. It presents practical, must-have information from the front lines of the wards in an easy-to-use quick reference format.

"As an intern you will encounter many new challenges. These will range from very simple to most complex. Please remember that you have acquired the tools to address this adversity. And, even when you feel most overwhelmed, you are undoubtedly surrounded by a wealth of available resources that include ancillary and nursing staff, fellow interns, senior residents and attending physicians. Although the year ahead of you may now seem long and daunting, your tasks (other than survival) are quite achievable. The following competencies/milestones were copied from the curriculum for the in-patient general medicine rotation for the internship program at Washington University School of Medicine and Barnes-Jewish Hospital. You can see that not only are the objectives quite simple, but your rigorous work in medical school has well prepared you to master many of your goals. Throughout the year, use these objectives as a checklist to remind yourself of your accomplishments and to guide your learning in potential areas of weakness. - Patient care: o Gather accurate information about patients, including performing a thorough history and physical examination. o Synthesize data into a prioritized problem list and differential diagnosis, and then formulate diagnostic and therapeutic plans. o Prioritize each day's work. o Know the indications, contraindications, and risks of some invasive procedures and competently perform some invasive procedures"--Provided by publisher.

Written by Washington University residents, this small pocket book contains all the essential information that interns need from day 1 on the wards, including ACLS algorithms, useful formulas, patient notes, top 10 workups, common calls/complaints, and common consultative questions in all subspecialties. Content includes vital pointers on what not to miss, when to refer/call for help, triage, cross-covering, and working with difficult patients. This edition has been thoroughly updated and several chapters have been expanded, particularly the critical care chapter. Other revisions

include expanded coverage of anticoagulation and new guidelines on patient safety issues, DVT prophylaxis, and GI prophylaxis. This edition is also available for PDAs. See PDA listing for details. The Washington Manual® is a registered mark belonging to Washington University in St. Louis to which international legal protection applies. The mark is used in this publication by LWW under license from Washington University.

This 4th edition of The Washington Manual Internship Survival Guide contains all the essential information needed for a successful internship. Designed to help residents improve their skills from their very first day on the wards, this pocket-size reference book offers practical medical advice for the top 10 workups and common calls and complaints residents will encounter during their rotations, including key history, what not to miss, and when to call for help.

Established for over 40 years as the "bible" of the medical ward, The Washington Manual® of Medical Therapeutics is now in its Thirty-Third Edition and builds upon that proud tradition—with even more of the current information you need, delivered in a timesaving, quick-reference style. Its portability, comprehensiveness, and ease of access makes it a favorite on-call resource for housestaff and faculty around the world. In this edition, color has been added for better navigation, new decision support algorithms have been added, and an improved templated and bulleted format facilitates a quicker answer. With this edition you now have the capability to upload this content to your handheld device and receive updates to the information throughout the activation period. Plus, you have access to eight medical calculators that include: GFR - Cockcroft-Gault Method (Adult) Urea Reduction % (Hemodialysis) Transtubular Potassium Gradient Osmolal Gap Anion Gap Serum Osmolality Reticulocyte Index Body Mass Index (BMI) The Washington Manual® is a registered mark belonging to Washington University in St. Louis to which international legal protection applies. The mark is used in this publication by LWW under license from Washington University. Available in North America Only

This survival guide provides all the information that is essential for a surgical internship, including daily routine, rounds, chart reviews, preoperative and postoperative care, operating room conduct, radiology, critical care, and interaction with families, colleagues, and allied health professionals. Comprehensive sections on common problems in general surgery, neurosurgery, orthopaedic surgery, urology, and plastic surgery present evaluation, diagnostic testing, and treatment in an easy-to-follow format. Other chapters cover crashing patients, tubes and drains, bleeding, codes, and nutrition.

This survival guide provides must-have information on the neurologic history and physical examination, neuroanatomy, specific neuroimaging techniques and diagnostic tools, and patient problems such as stroke, seizures, vertigo, dizziness, and ataxia, acute vision loss, headache, movement disorders, dementia, and sleep disorders. A listing of neurological Internet resources is included. Compatibility: BlackBerry(R) OS 4.1 or Higher / iPhone/iPod Touch 2.0 or Higher / Palm OS 3.5 or higher / Palm Pre Classic / Symbian S60, 3rd edition (Nokia) / Windows Mobile(TM) Pocket PC (all versions) / Windows Mobile Smartphone / Windows 98SE/2000/ME/XP/Vista/Tablet PC
